

GOALS: The establishment of a comprehensive community trails and pathway system for non-motorized travel and recreation using primarily public land, public right of way, and voluntary easement.

OBJECTIVES: To develop and maintain a system of trails and pathways connecting public parks, schools and bus stops, local commercial areas, adjacent communities and regional trails.

To provide handicapped access to trails and pathways wherever feasible.

To encourage developers to incorporate trails and pathways into their development plans that link new developments to the planned trail and pathways system.

To initiate and maintain a community trail and pathways education program.
